

Nadila pilar Kencana

 Kota Tangerang , Provinsi Banten,
Indonesia

Software Engineer & Associate Project Lead | Technical Project Management

Versatile Software Engineer with 3+ years of experience developing ERP, POS, and web platforms, while actively leading project lifecycles as a Project Lead / PIC. Proven capability in combining hands-on technical architecture (Laravel, React.js, Nest.js) with end-to-end project coordination from user requirement gathering, vendor alignment, and sprint tracking to UAT and stakeholder reporting. Seeking to leverage dual technical and project delivery expertise as a Junior / Technical Project Manager

Work Experience

Software Engineer & ERP Project PIC PT Hana Fashion Indonesia

- **Appointed as ERP Project PIC after 7 months of proven technical contribution, leading communication between internal business users, development teams, and external vendors.**
- **Analyzed complex manufacturing business processes** and systematically implemented them into the core ERP system, aligning operational workflows with automated software solutions.
- **Conducted user discovery interviews and requirement elicitation**, transforming operational business needs into clear technical scopes and workflow diagrams.
- **Orchestrated end-to-end module rollouts and user training**, gathering user feedback to iterate feature development and communicating analytical findings to the Project Manager.
- **Architected and developed robust APIs** using Nest.js and React.js, successfully integrating custom AL Language logic from Microsoft Dynamics 365 to bridge enterprise data and streamline administrative workflows.
- **Designed scalable database structures and endpoints** to support real-time manufacturing tracking, reducing manual process bottlenecks and improving cross-departmental efficiency.
- **Authored comprehensive project milestone and progress reports**, tracking deliverables, mitigating bottlenecks, and ensuring on-schedule system integration.

December 2025 - Present

Course Instructor • Kelastambahan.id

- Spearheaded the development of learning programs at a company specializing in programmatic education.
- Organized educational events and workshops to enhance learning experiences for participants.
- Created comprehensive learning syllabi, ensuring that the content aligns with educational goals and industry standards.
- Managed the execution of all learning programs, ensuring smooth operations and high-quality delivery.

July 2023 - Jul2025

Full Stack Web Developer & Project Lead • PT.Griya Fortuna Internasional

- **Developed full-stack web solutions** across ERP, Point of Sales (POS), asset management, and e-commerce platforms using Laravel, SQL, and modern JavaScript frameworks.

- **Led client discovery and requirement scoping sessions** prior to development kick-off to align business objectives with system architecture.
- **Managed user acceptance testing (UAT), rollout training, and iterative releases**, translating post-deployment feedback into continuous system improvements.
- **Supervised overall system maintenance and performance optimization** to maintain platform reliability across deployed applications.

December 2022 - November 2025

Freelance Web Developer

- pecintaanakyatim.com || kebuliyaman.com
- Redesigned the UI for a donation website and fixed bugs in several features developed by a previous developer. Utilized Laravel, Bootstrap, CSS, and JavaScript to implement custom UI/UX elements, ensuring faster development aligned with the client's requirements.

Juni 2025 - September 2025

Junior Web Developer & Secretary • HIMTI-UMT

- Worked to solve complex problems using the latest in Web Technologies.
- Development content and web appearance
- Training for web beginners with Laravel Freamwork
